This document confirms the successful completion by the student of phase 1 of flight training. On the date stated above, the student completed his/her first solo flight. The presence of this form in the students records will indicate this important milestone.

Guidelines for use

Complete this form after flight for a first solo.
 Insert a copy of the completed form in the students records, to mark this milestone in flight training.
 A solo flight authorisation in the students logbook is required before every local solo flight, except for the first solo where the authorisation can be inserted after flight.
 Make sure completion of phase 1 of the flight training is noted on the student enrollment form.
